**J. V. BERSCHT**  
The Christmas Store

## Open Wednesdays During December.

During the month of December all business houses in Didsbury will be open ALL DAY on Wednesdays.

## Alberta Wins Wheat Championship.

W. Freland Wilford, grain farmer from Stavely, Alberta, was crowned wheat king for 1935 at the International Livestock Exposition's 17th annual grain and hay show Monday.

Wilford won the title, one of the major honors of the show, with grain of the Reward variety. His sample weighed 66.6 pounds a bushel. The 38-year-old Alberta grain grower, who farms 1,200 acres west of Stavely, won the world's wheat championship at the Regina grain show in 1933.

Reserve champion of the wheat growers was another Canadian, William Rogers, of Tappen, B.C. He showed Durum of the Mindun type. His grain weighed 65.4 lbs. per bushel.

Wilford showed hard red spring wheat. The same type won the throne last year for another Alberta grower, Jack Alsopp, of Wembley.

This year marked the seventh consecutive victory for Canadian wheat in the international competition. The judges, who waited for broad daylight to choose the winning sample, said Wilford's exhibit was "beautiful grain."

Of the 17 annual grain shows held in Chicago, Canadians have carried off the wheat honors 14 times and 21 times since the inauguration of the international wheat contests 25 years ago.

"Reward" wheat with which Wilford won the crown is a variety of hard red spring wheat developed by the Canadian government's central experimental farm in Ottawa, and was first released in the spring of 1928.

Canadians won 50 out of the 87 prizes awarded for wheat by the judges. The first 30 prizes awarded for hard red spring wheat went to Canadians, and out of 44 awards for this type exhibitors from the provinces carried away 35.

## Post Office Xmas Mail.

Latest mailing dates for Christmas (1935), mail posted at Didsbury follow:

December 12th for Maritimes and Eastern U.S.A.
December 16th for Quebec, Ontario, Western U.S.A.
December 17th for Manitoba.
December 17th for Saskatchewan, and British Columbia.
December 19th for Alberta.
December 21st for Local.

## Olds Elks' Home Games.

A good many of our readers are interested in the doings of the Olds hockey team, which is again playing this season in the Alberta Hockey League, so we are giving the schedule of games to be played at Olds:

December 14	Calgary Bronks
" 21	Drumheller Miners
" 25	Edmonton Superiors
" 28	Calgary Bronks
January 4	Edmonton Dominions
" 11	Calgary Rangers
" 22	Calgary Bronks
" 30	Calgary Rangers
February 1	Drumheller Miners
" 10	Calgary Rangers
" 15	Drumheller Miners

## NOTICE

This is to certify that I audited the books of Social Credit Study Group No. 1 and found the same correct.—J. H. HEHN

## Didsbury Creamery Wins at Toronto

The Didsbury Creamery were very successful with their butter exhibits at the Royal Winter Fair held at Toronto when they won one 1st and two 2nds. This was the last exhibition of the season and Canada's premier fair.

The local creamery has had a very successful year, having exhibited at every leading fair held in Canada during the season, and have succeeded in getting into the prize money on every occasion.

Both buttermaker and manager are to be complimented on their excellent showing, which indicates that Didsbury has one of the leading creameries in the Dominion, and also that this district can produce cream of the highest quality.

## WEDDINGS

### ECKSTRAND—TITTSWORTH.

A quiet wedding was solemnized in Calgary on Tuesday, November 12 at 5:30 p.m. in the Central United Church, when Bessie Fern Ann Tittsworth, of Didsbury, became the bride of Clifford Amundus Eckstrand, of Carstairs. The ceremony was performed in the presence of a few relatives by Rev. E. M. Aitken.

After a short honeymoon spent at High River the happy couple returned to the groom's farm west of Carstairs.

### DEDELS—SCOWN.

Fredrick Henry Dedels, of Didsbury, and Edna Regina Scown, of Drumheller, were united in marriage at the M.B.C. Parsonage on Friday, November 29, 1935. Rev. F. Vincent performed the ceremony.

## "Where's Grandma" Delights Audience

A capacity house greeted the young people of Carstairs United Church when they brought their 3-act play, "Where's Grandma?" to the Opera House on Monday evening under the auspices of the local United Church Choir.

"Grandma" was ably portrayed by Mrs. Jahore and her fund of humor greatly amused the large audience. Mrs. Sellens and Stan. Wilson, as the young married pair Bob and Gretchen Blake, were all that could be desired, while Ross Blachley and Eileen Weiss, as Jack and Carol Worley, were admirably suited to their respective roles. The other members of the cast all acted their parts well, Arlene Truesdale (scheming daughter of a ten cent store magnate) played by Gladys Mains, and Lucy King (Jack Worley's sweetheart) by Ruth Rostrop. Evelyn Beckner and Ralph Stuart as Dahlia and Midnight (darkie servants), deserve special mention, their comical antics and cross purpose dialogue provoking roars of laughter throughout the performance. Much credit is due Rev. C. E. Rogers for his splendid direction.

Previous to the rise of the curtain and between the acts, the Didsbury School Orchestra, under direction of Mr. C. R. Ford, rendered several musical selections which received much applause from the large and appreciative audience.

Knox Church Choir is to be complimented on sponsoring such a splendid evening's entertainment.

Westcott W.I. Bazaar has been further postponed, the new date being Friday, December 6.

# SPECIALS!

... for the Christmas Shopper

JUST ARRIVED—A Large Shipment of  
**Rogers & Camirand's Fine Quality Silverware**

### Annual Fire Losses

During the next few months while King Winter holds the prairies in his icy grip and folks are piling furnaces and stoves high with fuel to withstand his onslaught the newspapers can be depended upon to relate a number of stories of dreadful tragedy.

They will be stories of families or members of families burned to death, the charred remains of their homes their funeral pyres. In some cases a whole family will disappear in the raging inferno that will devour their homes. In other cases, some members of the family will escape in night attire or scanty clothing only to suffer agonies and perhaps death from frostbite as a result of their misadventure.

Adults and children ranging almost from maturity to infants a few months old will be asphyxiated by smoke or burned to a crisp. Others will suffer untold agonies for weeks and perhaps months from burns or frost-bites occasioned by a hurried flight from a burning home in sub-zero weather, or by a combination of both. These will represent a portion of the toll to be exacted against the prairie dweller during the winter of 1935-36 by the Fire Demon, if the history of the past few winters is repeated.

In addition to causing the death of a considerable number and the injury, permanent or temporary of a still greater number, the fire fiend will, during the twelve months of 1936 take a further toll of property to a total value of approximately four and a half millions of dollars in the provinces of Alberta, Saskatchewan and Manitoba, if the fire loss story of the past three years is repeated.

These facts and figures, borne out by official data and records of the fire commissioners of the three provinces indicates that people are paying an appalling tribute to carelessness, or ignorance of the dangers they run when they fail to exercise proper control over one of the most useful elements in the service of man, when kept in its place.

For accompanying the facts and figures in the possession of governmental officials is sufficient evidence to show that carelessness or ignorance must be indicated for this tremendous loss of life and property. The testimony indicates clearly that most of these tragedies are needless. They can be obviated if proper precautions are taken at the right time.

Out of a total of 49 deaths by fire in Alberta and Saskatchewan in the calendar year, 1934, thirteen, or more than one-fourth, were directly attributable to the misuse of gasoline, distillate or coal oil in lighting fires or speeding up slow fires in kitchen ranges, stoves or furnaces. In addition the deaths of a number of other people who were trapped in homes or buildings destroyed by fire where the cause of the outbreak is listed as "unknown" may also have been placed in the same category if the origin of the conflagrations could have been determined.

But that is not the whole case against this trinity of highly inflammable and therefore dangerous liquids. For, in addition to the number cited, five more lost their lives as a result of explosion of gasoline, four on account of explosion of coal oil lamps, two because coal oil stoves exploded and one other died when gasoline used as an agent for cleaning clothes ignited during the process.

While misuse of gasoline and coal oil is the major factor in loss of life by fire in the prairie provinces, defective heating apparatus is responsible for the greatest property loss as well as for some of the deaths and this fact is also clearly brought out in the data contained in the reports of the fire commissioners.

Approximately 3,000 buildings are either a total loss or seriously damaged by fire in the three provinces every year, occasioning a monetary loss of about \$2,250,000 or approximately one half of the total average annual property loss by fire.

Most of this loss naturally occurs between November 1 and March 31, as might be expected, this being the period when furnaces and stoves are being forced to capacity to combat the outside cold.

Unfortunately the origin of two-thirds of the heaviest losses is never determined, but of the remaining one-third more than 50 per cent. is laid to the door of defective chimneys, stoves and stove and furnace pipes and one half of the remainder to carelessness of smokers in disposing of cigar and cigarette butts and pipe ashes or matches.

Experience has shown that the greatest property loss occurs in January during the period of the most severe winter weather and simultaneous with some of the most direful tragedies to prairie residents.

In the light of these facts, it would seem almost unnecessary to issue warnings to people to refrain from using inflammable liquids to hasten fires, to make sure that all heating apparatus is in safe condition to withstand a long siege and to exercise care when smoking. But such warnings are issued frequently by authorities and still the tragedies and losses continue.

### DON'T RISK BAKING FAILURES . . .

"I CAN'T AFFORD TO RISK FAILURES DUE TO INFERIOR BAKING POWDER. THAT'S WHY I INSIST ON MAGIC. IT'S ECONOMICAL — LESS THAN 1¢ WORTH MAKES A BIG CAKE."

says MISS MARGARET MCFARLANE, Dietitian of St. Michael's Hospital, Toronto.

Leading Canadian Cookery Experts warn against trusting fine materials to doubtful baking powder. They use and recommend MAGIC Baking Powder for perfect cakes!

CONTAINS NO ALUM—This statement on every tin is your guarantee that Magic Baking Powder is free from alum or any harmful ingredient. Made in Canada

### Marvels Of Surgery

Limbs Of Crippled Children Are Made Straight And Strong

Detouring of muscles and nerves in surgical remodelling of arms and legs to convert crippled children into straight and strong boys and girls was described to the American College of Surgeons.

The operations were reported by Leroy C. Abbott, M.D., and Frederick C. Bost, M.D., of the University of California medical school.

One was performed on a 13-year-old girl, with a leg deformity due to a brain injury at birth. The leg suffered from permanent spasm, stiffening and deformity, because part of the brain controlling certain leg muscles did not work properly.

The surgeons cut some of the nerves leading to the faulty muscle, thereby disconnecting them partly from the haywire control. Then they lengthened the muscles, which had been too short, by a tendon operation.

The result was to relieve the strain which had held the child's leg in the deformed position.

### Westerner Obtains Honour

Vancouver Youth Is First Merchant Service Midshipman Pilot

One of Vancouver's sons has gained the distinction of being the first merchant service midshipman in the British Empire to enroll for aviation and receive a pilot's "A" license.

He is Cadet Captain Walter R. N. Sturdy, who left on his first voyage on the Empress of Japan out of Vancouver for the Orient. He has signed as a cadet with the C.P.R. for three years.

Flying is a new field of endeavor for the merchant service. Cadets receive theoretical studies on board H.M.S. Conway, the training ship at Liverpool, and practical experience at Hooton aerodrome, Liverpool.

Young Sturdy came within 20 minutes of creating a record in training for solo flight. The requirement calls for 12 hours before taking solo, and the record for the British air ministry is five hours. The Vancouver boy made it in 5 hours, 20 minutes.

### Trans-Atlantic Air Service

New Style Of Craft May Make Experimental Flights Next Year

Two airplanes of radically different types are being constructed by Imperial Airways Limited, for trans-Atlantic service, it was disclosed in London.

Sir Eric Geddes, chairman, told the annual meeting of the company one of the craft may be ready for experimental flights next year. He said "I believe not only to our interests but also to those of our cousins, the United States, that Great Britain and the United States should co-operate in the establishment of regular air service from Europe to North America."

### HAVE YOU Digestive Troubles?

Dr. Pierce's Golden Medical Discovery I was able to eat, gained in weight and resumed my work. All druggists.

### Build Military Roads

Super Highways To Be Constructed In Germany

A scheme for a vast network of super-highways in Germany, which foreign experts see as of great military significance, was a step nearer realization recently.

Officials announced work would begin soon on a 19-mile stretch in two Berlin suburbs, forming part of a big circle of the proposed super-highway around Berlin. It will be important in serving southern traffic.

One foreigner observer said: "One lesson that Germany learned in the Great War is the need for perfect communication facilities."

The Modern Oxford Bible is said to be the only book in the world that does not contain a typographical error.

There should be an unlimited supply of gratitude. It is so seldom used.

### Sight Restored

Toronto Woman Recovers Sight As Result Of Earthquake

Sixty-three-year-old Mrs. Kate Mitchell saw clearly for the first time in three years as she turned on the electric lights just after the earthquake shook her King street house in Toronto. The tremor was like a message "direct from heaven" for her, the white-haired woman said, convinced the shock restored her sight.

For three years, Mrs. Mitchell said she had been able "only to see shadows." She could not leave the house without aid of another person.

"Thank God I can now see," she said—"the long hours of night are over."

### FASHION FANCIES

756

"SELF-HELP" BUTTON-DOWN-FRONT EASY-TO-MAKE DRESS FOR SCHOOLGIRLS

By Ellen Worth

Don't you think this is a cunning dress for little school-age daughter? It won't catch on her nose or muss her hair up (so it needs more combing) getting it on and off. She doesn't need any aid from mother, either, to slip into it.

One of the new looking wine-red ground cotton prints made the original. The collar and cuffs are white pique.

Another delightful suggestion is wool jersey in pottery rust with white linen collar and cuffs made detachable, so as to be readily removed for laundering.

Style No. 756 is designed for sizes 4, 6, 8 and 10 years. Size 8 requires 2 yards of 30-inch material with 3/4 yard of 35-inch contrasting.

Patterns 15c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

Let the new Fall and Winter Fashion Magazine assist you in assembling your family's fall clothes. There are designs for every type and every occasion. And of course one of our perfect-fitting patterns is obtainable for every design illustrated. Don't delay! Send for your copy to-day!

Polly—"Shall I go to a mind-reader or a palm-reader?"

Paul—"Make it a palm-reader. Undoubtedly you have a palm."

It is estimated that a dairy cow consumes approximately eleven and one-half tons of water per year.

### Olympic Camera Is Fast

Can Show Pictures On Screen Ten Minutes After Race

A motion picture film which can be shown on the screen ten minutes after taking the picture has recently been perfected especially for the Berlin Olympic games in 1936.

This film is used in a camera which makes 100 exposures per second. While the race is being filmed, a clock mechanism, released the moment of its start, records the time on the film every one-hundredth of a second, so that the runner's time as he crosses the finish line is clearly registered on the film.

The officials at the Olympic games at Los Angeles used a similar device, but it took quite some time after the finish of a race before the film was ready for examination of the judges. Another advantage of this new German camera is that the pictures are taken by two stereoscopically arranged lenses of red and green glass respectively, which results in a more vivid and lifelike image than it has heretofore been possible to obtain.

By using this new device the judges will be able to decide the outcome of a contest with greater accuracy and with more justice to the competitors than the human eye is capable of.

### World's Rarest Stamp

The world's rarest and most valuable stamp, a British Guiana one-cent stamp owned by Mrs. Costa Scala of Utica, N.Y., found no buyer recently when placed on auction at the opening price of £7,500 (about \$27,500). It is insured for £10,000.

The wrong side of every question isn't always the one supported by your opponents. They may sometimes be right.

### Why at 40 You Think You're "GROWING OLD"

It's Frequently Just an "Idea." Not "Old Age." And According to Scientists, May Be Something No More Alarming Than A Touch Of Acid Stomach

At about 40, many people think they're "growing old." They're tired a lot. Have headaches. Stomach upsets. Dizziness. Nausea.

Well, scientists say the cause, in a great many cases, is merely an acid condition of the stomach. The thing to do is simply to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, all you do is take Phillips' Milk of Magnesia after meals and before going to bed.

Try this. You'll feel like another person! Take either the familiar liquid "PHILLIPS'", or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

### Also in Tablet Form

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

**PHILLIPS' Milk of Magnesia**

## New Rust Resistant Variety Of Wheat To Be Developed During 1936

New varieties of rust-resistant wheat produced by Canadian research institutions will not be released to farmers this coming year but will be multiplied in 1936 "exclusively under the control of the originators" a press statement issued following a conference of representatives of the federal department of agriculture and the national research council at Winnipeg, intimates.

The new wheat from Minnesota, Thatcher, bred for rust resistance, was commended. This wheat has already been licensed for use in Canada.

The new rust-resistant wheat produced by the Rust Research laboratory at Winnipeg has been named Renown. The selection from strains bred at Brandon experimental farm has not been named. The University of Saskatchewan selection is called Apex.

The general suitability of these varieties for western farming conditions, including such factors as yield, strength of straw, earliness, resistance to disease, as well as the milling and baking quality were critically examined. Several of these varieties were found, in the extensive tests which were carried out, to be not only rust-resistant, but desirable from the standpoint of yield and quality.

In order to insure the most rapid propagation of this valuable material, it was decided that it will be increased in 1936 exclusively under the control of the originators. In order to speed up the multiplication of the material and to safeguard and to provide against loss through drought, arrangements are being made to have a considerable amount grown on irrigated land at the Dominion experimental station, Lethbridge, Alberta.

In view of the situation, the committee thought it desirable to make a statement with regard to the general characteristics of Thatcher wheat. The statement reveals that this wheat ripens two or three days earlier than Marquis and has very strong straw which is slightly shorter than that of Marquis. With regard to rust resistance, Thatcher is described by the Minnesota experimental station as moderately resistant.

In some seasons it shows as much as 40 to 50 per cent. rust. Thatcher wheat is almost completely susceptible to leaf rust and covered smut, but is practically immune to loose smut. In this connection it is of interest that the rust resistant wheats produced in Canada are more constant in their resistance. So far, however, the rust infections on Thatcher wheat have not appreciably affected the yield. During these tests conducted for three years it has given somewhat higher yields than Marquis. Under rust epidemic conditions it gives much higher yields than Marquis. In appearance, Thatcher is not equal to Marquis or Reward, the kernels being smaller and somewhat dull in color. In weight per bushel, Thatcher averages slightly lower than Marquis.

In regard to the milling and baking quality, Thatcher gives a satisfactory yield of flour, which, however, tends to be slightly yellower than the flour obtained from Marquis. Its baking strength is satisfactory.

The meeting was held under the chairmanship of Dr. R. Newton, director of the division of biology of the national research council, Ottawa. Others present were: Dr. K. W. Neatby and Dr. A. G. McCalla, University of Alberta; President W. C. Murray, Dr. W. P. Thompson, Dr. T. Thorvaldson, Dr. R. K. Larmour and Dr. J. B. Harrington, University of Saskatchewan; Dr. G. P. McRostie, University of Manitoba; Dr. C. H. Goulden, Dr. R. F. Peterson, J. Welsh, Dr. J. W. Craigie, Dominion rust research laboratory; Dr. W. F. Geddes, T. R. Aitken, Dominion grain research laboratory; L. H. Newman, A. G. O. Whiteside, central experimental farm, Ottawa; Dr. J. G. Malloch, national research council, Ottawa.

Regardless of the energy expended in washing dishes clean, a film of grease one-millionth of an inch thick always remains on each dish.

### For Control Of Cancer

#### New Treatment Claims To Have Benefited A Number Of Cases

Authors of the Coffey-Humber cancer treatment, which six years ago caused one of the greatest controversies in American medical history, told the American College of Surgeons they believed their system had "benefited a larger number of patients than any other method."

The report gave for the first time the results of the first five years of this treatment, which they called a "research."

The authors, W. B. Coffey, M.D., and Dr. John D. Humber, of San Francisco, said they had treated only hopeless, inoperable cases, totalling 7,513. Of these they said 3,872 died before they could be given the minimum amount of treatment needed for more than relief from pain.

Of the others they said that a selected list of 1,040, chosen because there was no doubt these persons had hopeless, inoperable cancer and no known chance to live, showed to-day 108 known survivors and 50 believed to be alive but not counted because of incomplete records.

Of the 108 they said 53 are positively free of any signs of cancer. The others still have growths which, however, have become inactive.

### Waterbucketfull Of Fish

#### Welsh Town Has Many Oddities Including Its Own Name

Stories from north Wales, telling about the village of Llanfairpwllgwyngddogerychwyrndrobwllllandsylllogoch are wrong. William Richard Smart, tailor, says so.

The name has been published as meaning "The village of the church of St. Mary by the pool of white hazels near the swift whirlpool of St. Tysilio's church of the Red Cave."

Smart lived in the village and declares the correct name of the north Wales hamlet is Llanfairpwllgwyngddogerychwyrndrobwllllandsylllogoch, which is translated into English as "The village of the fair palace close to the white whirlpool in Saint's pool close to Desilio's church near the fish trap."

The "fish trap" is a trough which fills with fish at high tide. Natives may go there and, for a fee of six pence, scoop up a waterbucketfull of herring.

The town's cemetery is on a body of land which Smart says becomes an island for a certain period every day when the tide is in, so funerals can be held only at low tide.

A tree bearing seven different kinds of apples, all of different flavor and exceptionally good, is another of the village's attractions.

### Electric Soil Heating

#### Used Extensively For Propagation Of Seed And Promoting Plant Growth

Electric soil heating for the propagation of seed and promoting plant growth is making headway in Canada. Nearly 200 installations are now being used in the province of Ontario in greenhouses, and in hotbeds and cold frames, for propagating the seeds of tomatoes, cabbage, cauliflower, egg plant, peppers, cucumbers, melons, certain flowers, rooting cuttings of flowers, evergreens, and sprouting sweet potatoes. The results of electric soil heating are stated to be very satisfactory. In the Burlington district the use of under-soil electric heating hastens the development of plants to set out in the field by about three weeks, and the growers report that freedom from worry when the weather changes is one of the distinct advantages of the system. Plants have much greater root development, shorter and thicker stems, and are generally more rugged. During the past season, plants when set out in the field had less wilt and made quick recovery from it.

As long ago as before 1850, the saxophone was officially adopted as an instrument in use in French military bands.

### Long Distance Phone Calls

#### Cheap Rates In Britain Bring Increased Revenue

Britain pioneered nearly a hundred years ago in introducing "penny postage" and to-day everyone takes it for granted that a letter may be sent half-way round the world for two or three cents.

This year Britain has led the way in cheapening long-distance telephone calls down to an almost nominal price. After seven o'clock in the evening a call from any point in Great Britain to any other costs only a shilling or 24 cents.

In a recent "Spectator" the experiment is described as a great success. Some trouble has been encountered through the crowding of telephone wires with messages, but that is being overcome. The multiplication of business is making the shilling rate pay, just as a huge increase in the volume of letters made the penny post pay.

The British example a century ago was followed by every other country though only after the lapse of a generation. It may be hoped less time will be needed to make the shilling long-distance telephone call universal. —Winnipeg Free Press.

### Freak Cabbage

Five perfectly formed heads of cabbage grew on a single stalk in the garden of Sam Sorenson of Stoughton, Wis. Each head measured about five inches in diameter.

One and a half acres of farm land per person is required for the production of enough food for an adequate diet.

Len: "Clark calls himself a human dynamo."  
Dun: "Well, why shouldn't he? Everything he has on is charged."

## The SNAPSHOT GUILD

CLOUDS AND FILTERS

If it's clouds you want in your next picture a filter will capture them.

Last week the Snapshot Guild received a letter from a reader who lives in the country. She wrote in part: "At this time of year the clouds are simply beautiful and often when their formations are unusually attractive I take many snapshots hoping they will register and give a rather true picture of the beautiful scene. I have been somewhat disappointed in the results, however, for these beautiful, soft, white clouds have not appeared in the picture as true to nature as I had hoped for."

Clouds do add to the beauty of any outdoor picture but it is true that they do not always register through the lens of the camera as they appear to the eye.

Suppose we are taking a picture such as the one above and use a film which is sensitive only to ultra-violet, violet and blue light. We should not be able to distinguish between the clouds and sky if we give enough exposure to show detail in the landscape. This is because the light from the blue sky and the white clouds is very rich in light rays to which the film responds.

Although clouds and blue sky are both rich in ultra-violet, violet and blue, there is a marked difference between the two. The light from the clouds, being white, actually contains a certain amount of green and red light, while that from the blue sky does not.

This, then makes it necessary to distinguish between clouds and sky in order to record both in a snapshot. We must, therefore, use a film which will respond to green, or to

## Canada's First Negro Military Unit Did Service In Victoria In Early Days

### Bees And Tartaric

#### Unnecessary To Add Acid To Sugar Fed To Bees

Beekkeepers are continually being advised to add a small amount of tartaric acid to sugar syrup when feeding such syrup to bees as winter stores, states the progress report for 1930-31-32 of the Bee Division, Dominion Department of Agriculture. The claims made for the use of tartaric acid are that it prevents the re-granulation of the syrup and assists the bees to invert the sugar. At the Central Experimental Farm, Ottawa, a considerable amount of sugar has been fed to bees every winter without adding tartaric acid and without any apparent injurious effect on the bees. Further, from the results of an experiment carried out during the three years, it would appear to be unnecessary to add acid or any other agent to a solution of two parts sugar and one part water as winter food for bees. The main feature of the experiment was that in no case where a straight solution of sugar and water was given to the bees did the solution recrystallize in the combs, and the inversion of sugar was as equally progressive as with the tartaric solution, showing that the bees required no assistance so far as the inversion of sugar was concerned.

Blizzards make life easier for the ptarmigan of the far north by keeping the feeding grounds swept free of snow.

Talk of a colored "foreign legion" to aid Abyssinia recalls Canada's first "all black" organization, the Victoria Pioneer Rifle Corps, a live militia unit with a place in the sun 85 years ago, when the country around was called New Caledonia.

Enactment in California about 1850 of laws considered repressive resulted in the migration of 600 colored people from that state to the British settlements of New Caledonia, of which Vancouver Island was the principal inhabited section. The island then boasted a population of 7,000 whites and 2,000 Chinese and had been leased to the Hudson's Bay Co.

With the opinion the influx of the black race in the form of 600 industrious, law-abiding folk would benefit the colony, James Douglas, the governor, gave the new arrivals a cordial welcome and the assurance they would receive fair and impartial treatment. They settled around what was then Fort Victoria. Some of them later moved to Nanaimo and to Salt Spring Island, 20 miles away.

Finding the color line drawn when they tried to enter various civic bodies, the newcomers appealed to Governor Douglas for permission to express their loyalty and citizenship in a militia company. Thus the Victoria Pioneer Rifle Corps came into being. It included a captain and two lieutenants, with 44 non-commissioned officers and privates, every man a full-blooded negro not long from California. They were instructed by a sergeant of marines from the H.M.S. Swiftsure.

The colored militiamen were armed with flintlock muskets and wore uniforms of blue with white facings and pipe-clayed trappings, topped with the shako head-dress. Uniforms as well as equipment were issued by the Hudson's Bay Co. The men drilled faithfully and earned the reputation of an efficient military unit.

Meanwhile, most of the negro colony had embraced British citizenship, grateful in their freedom as compared with the conditions of slavery then suffered by thousands of kinsfolk in the United States. But the color line was still drawn on Vancouver Island by some of the whites. It is recorded that on one occasion, denied admittance to the opera house, the colored people rushed the place and did some damage to the furnishings.

The negro militia corps paraded regularly until 1864, when, at the welcoming of a new governor, Arthur Kennedy, the authorities refused the unit permission to form part of the guard. Next day they marched before Governor Kennedy, who diplomatically told them he regretted he had to decline official recognition to the corps. Vancouver Island had become a crown colony and administrative powers of the Hudson's Bay Co. had ceased. After some manoeuvres the corps paraded to the company's headquarters, turned in their arms and passed out of existence.

Interesting to note, the Dominion census of 1931 reported only 533 blacks in all British Columbia.

### Ancient Cab Still Useful

#### Decrepit English Taxi Takes Fancy Of American Who Ships It To Boston

An ancient taxi caught the eye of a wealthy American, who took a fancy to a decrepit old taxicab during a visit to England. He had it transported across the Atlantic for use on his exclusive summer estate near Boston. The old taxi, which for the past 20 years has plied the streets of Liverpool, made an indelible impression on Mr. Donald Angler, of Chestnut Hill, and of Marion, Cape Cod, when he was last in England. He determined to have it for his own. Purchasing it for \$30, he had it shipped across the Atlantic at a cost greatly exceeding its value. The cab, complete with taxi-meter, old fashioned horn and padded leather seats, is now being used to convey guests from Mr. Angler's summer mansion at Marion to the yacht club, the country club or the beach, as the case may be.

### \$200,000 Spent in Alberta By United States Tourists

Revealing an increase of nearly  
50 per cent over two years ago, nearly  
42,000 tourists from the United  
States entered Alberta this year  
through the two Canadian customs  
ports at Carway and Coult on the  
Alberta-Montana border.

The figures given do not by any  
means represent the total of United  
States cars that entered the province  
this season as besides those which  
came from the east by way of Mani-  
toba and Saskatchewan, many others  
coming in over the Crownest or  
Banff routes.

Taking the average that every  
tourist spends at least \$5.00 in the  
province, it is fair to estimate that  
these visitors put over \$200,000 into  
circulation in Alberta, bearing out  
the contention that it is good cash  
business and something this province  
needs, to increase the tourist move-  
ment to Alberta.

That estimate of money spent by  
42,000 tourists should be sufficient  
to give further impetus to the de-  
mands that Alberta needs better  
highways and that the investment  
will be returned several times over  
in a lucrative tourist trade.

### "Grain Forum" is New Friday Radio Feature

Friday, December 6 at 9 p.m.  
central standard time and 8 p.m.  
mountain standard time, will mark  
the opening of a new All-Western  
program known as "The Grain For-  
um," which will be broadcast over a  
network of western stations every  
Friday at the same hour. It is  
sponsored jointly by the Winnipeg  
Grain Exchange and the Northwest  
Grain Dealers' Association, and  
promises to contain several interest-  
ing features.

Tuneful music will be provided by  
a string orchestra, known as the  
"Cereal Strings" and, on occasions,  
by a specially selected group of male  
singers.

Short, interesting addresses of  
not more than ten minutes' duration  
will deal with various aspects of the  
production, distribution and market-  
ing of grain.

An invitation will also be extended  
to all those interested in the growing  
of grain to submit questions on agri-  
cultural problems, all of which will  
be answered. The more important  
questions and answers will be broad-  
cast.

The first talk on December 6th  
will be introductory to the series and  
will contain some announcements of  
particular interest to the farming  
community.

On December 13th a short talk  
on the "World's Foodstuffs and the  
Place Occupied by Wheat" will be  
given, and December 20th will be  
devoted to a special Xmas broadcast  
featuring the orchestra and the male  
voice ensemble.

Other talks planned for early de-  
livery are: "Canada and her Com-  
petitors," "The Services of the  
Country Elevator," "The Grain Ex-  
change: What it does and what it  
does not do," "The Factors That  
Govern and Influence the Price of  
Wheat."

## Doings of Our Neighbors

**AT OLDS:** Hube Gooder is an-  
nouncing that he has opened a  
permanent waving parlor at his home  
in Olds. Hube has just completed  
a practical course in modern perman-  
ent waving and has installed a full  
equipment of modern appliances.

**AT INNISFAIR:** Fifty rolls of snow  
fence have been provided by public  
subscription and erected by muni-  
cipalities at a cost of about \$325.00.  
Fences have been erected at all bad  
spots as far west as Raven.

Tuesday afternoon, November 26  
the home of Mr. and Mrs. Carl Sick  
was the scene of a very pretty wed-  
ding, when their only daughter,  
Winnifred Mildred, became the bride  
of Frank William Churchill, of Olds,  
son of the late Mr. and Mrs. E. J.  
Churchill, of Cranbrook, Kent, Eng-  
land.

The Poplar Grove Municipality is  
advertising a tax sale under the Tax  
Recovery Act to be held on Dec. 18.

**AT RED DEER:** Work has begun  
on the rebuilding of the C.N.R.'s  
bridge over the Red Deer river into  
Red Deer, and the job will probably  
run to \$25,000 or better.

### Knox United Church Notes.

The Rev. G. G. Webber of Van-  
couver, the Western Secretary of  
the Lord's Day Alliance, will occu-  
py the pulpit next Sunday. His  
address is "SUNDAY! Why?  
What? What shall we do with  
it?" We urge a full attendance.  
At Westcott and Westerdale the  
services will be conducted by the  
pastor.

**GIVE LASTING  
Electrical  
GIFTS**

**Always the Most Desired,  
Used and Appreciated**

Have you ever watched women thrill over  
Electrical Gifts — heard them discuss how often  
they'll use them, the time saved, the work saved,  
the fuss and bother eliminated? Haven't you  
wished that your gift would be as much desired, as  
much appreciated? It won't be — until you, too,  
satisfy these All-year Longings with Gifts from  
your Electrical Dealer.

Electrical Gifts are so beautiful, so practical  
and so varied in price that whether you have many  
dollars to spend — or just a few cents — you can  
give a gift this Christmas which is intensely desired  
— and which will be keenly appreciated for a long  
time to come.

### Close 2 Days Christmas.

Stores and business houses in Didsbury will again take two days' holiday at Christmas—Christmas Day and December 26. This has been the practice for the past few years.

### Aberhart On Local Radio

As soon as possible after his return from the dominion-provincial conference at Ottawa, Premier William Aberhart plans to institute a series of Sunday evening broadcasts from Edmonton, similar to those now given from his Prophetic Bible Institute at Calgary.

The Calgary broadcast will continue in the afternoon as has been the case.

The local broadcast will be carried over an Edmonton station and will blanket most of the province.

It is planned that the weekly speakers will be the Premier and Hon. Ernest C. Manning, each taking one service a day and will alternate between this city and Calgary each week.

### Seed Grain Should Be Tested

All farmers who have any doubt whatever regarding frost damage should have their seed tested. This service is given free of charge by the Dominion Government seed branch at Calgary. Samples should be mailed direct to the Dominion Gov't Seed Inspector, Calgary, with a request for germination or purity test, or both, as may be desired. The Seed Branch will test free of charge for each farmer three samples, provided they are sent direct.

The elevator men have expressed willingness to assist any farmer in sending in the samples.

### Special Railway Fares For Christmas and New Year's

Specially reduced fares for Christmas and New Year's between all stations, will be offered by the Canadian Pacific Railway according to information given by Mr. J. A. McGhee, Local Agent.

Single fare and one quarter for the round trip for Christmas will apply from December 23 to 25 with return limit December 26, while for New Year's similar tickets will be sold December 30 to January 1, good returning until January 2.

There will also be a special ticket based on single fare and one third to cover both holidays, on sale from December 20 to January 1 and limited for return passage to Jan. 10, 1936.

These fares should prove attractive to travellers who are desirous of spending Christmas or New Year's with relatives or friends.

### Fined For Peddling Coal.

Charged in Calgary Police Court on Monday morning with violation of the Auctioneers' Act through having been peddling coal without a license, Gaede Brothers, truck operators, were fined \$10.00 and costs by Magistrate Davidson.

A. L. Burdett, coal dealer of Hubalta, entered the charge, claiming that he had warned the operators in question upon suspecting them of canvassing the Forest Lawn district. He said that legitimate coal dealers were threatened with serious loss of trade by unlicensed peddlers.

### Evangelical Church Notes

Rev. F. F. Jordan will be the preacher again at both the morning and evening services next Sunday. There will be special music by the Senior and Junior choirs.

Those who have been coming from night to night have been greatly enjoying Rev. Jordan's messages. Have you heard him yet? If not you have been missing something good. Next week will be the closing week—Plan to come every night—and bring a friend.

### Carstairs Boy Wins \$50 Bond

The novelty dance given by the I.O.D.E. on Friday was a very successful affair and fully sustained the reputation of the I.O.D.E. for putting on enjoyable affairs.

The prizes for the novelty dances were won by Miss Lola Hunsperger, Miss Grace Ranton, Mr. Ralph Hoare and Mr. J. Hill.

The drawing for the \$50.00 bond was won by little Bobby McCoy, son of Mr. and Mrs. Russell McCoy of Carstairs.

### Seed Oats

The Provincial Government has made arrangements for the purchase of uncleaned oats suitable for seed, 2 C.W., 3 C.W. and extra No. 1 Feed carrying a minimum germination of 70% in 7 days, with a maximum wild oat content of 20 per pound, will be accepted at the following basis:

Grade Wild Oat Content Price  
2 C.W. Not over 8 per lb. 38c bus.  
2 C.W. Not over 20 per lb. 35c bus.  
with Dominion Government Seed Control Certificate attached, to the effect that oats can be cleaned to above mentioned seed requirements.

Market spreads between 2 C.W. and lower grades will be deducted from the above mentioned prices. The grade will be established by Government inspection. The above prices are net to the producer on track at shipping point, subject to deduction for handling charges, inspection and weighing, exchange, etc. There is no deduction for commission as the Government has agreed to pay the regular commission charge.

### Burnside Notes.

Mr. and Mrs. Sid Gilson and family spent Sunday with the latter's mother, Mrs. Dundas and other relatives at Allingham.

Miss Margaret Coyne spent Sunday with Miss Alberta Metz.

The W.I. concert and dance on Friday drew a large crowd. In the drawing for prizes the Aluminum roaster was won by Mrs. Jack Garner while Miss Inga Sick drew the second prize, a flashlight.

A very enjoyable farewell party for Miss Phillis Bernard was given at the home of Mrs. Geo Saunders on Thursday evening.

The bridge club met on Tuesday evening at the home of Mrs. A. A. Jenkins. The next session will be held at the home of Mr. Joe Rist on Tuesday evening, December 10th.

Mr. and Mrs. A. E. Thompson spent Sunday with Mr. and Mrs. Joe Clarke.

Mr. Bill Jenkins and sister Una spent Sunday with Three Hills friends.

Mrs. B. Woods spent Wednesday afternoon with Mrs. Eckel.

Mr. and Mrs. W. Lyons were Saturday supper guests with Mr. and Mrs. B. Woods.

Mr. Fred Metz spent Sunday evening with Mr. N. Eckel.

WORLD HAPPENINGS  
BRIEFLY TOLD

Revision of the Treaty of Versailles means war, Winston Churchill, former chancellor of the exchequer, warned Britain.

Eleven members of the crew of the Soviet tanker Sovnarko were killed in an explosion while the tanker was loading petroleum at Krasnovsk.

Discovery of a method for manufacturing a commercially adaptable gas from ordinary clover was claimed for two students of St. Paul by Dean R. U. Jones, head of the MacAlester College chemistry department.

Vast public granaries are to be established all over Hopei province in China, to insure the 35,080,000 people against famine. The province has been districted, according to population, and the granaries must hold reserves based on population.

Political union of Nova Scotia, New Brunswick and Prince Edward Island, with Halifax as the capital of the maritime provinces, was advocated by J. Newton Harvey, Vancouver business man, in an address at Halifax.

Algoma wolves have started to pester lighthouse keepers on Lake Superior, states G. N. McDonald, keeper of the light on Parisisene island. Wolves are plentiful on the island and are killing off chickens in large numbers, he said.

T. D. LeMay, Toronto planning commissioner, reported to the board of control that economic loss to Toronto through death and injury resulting from motor accidents last year was \$8,500,000. He recommended a traffic school be set up for all pupils more than 15 years old.

An ancient Ethiopian superstition—"Thou shalt sell no milk"—is preventing milk purchases from natives by the Italian army in Northern Ethiopia. The natives have a century-old belief if they sell milk their cows will die. Foreigners wanting milk, therefore, are buying the cows outright.

## Byng Of Vimy

## Estate Bequeathed By Former Governor-General Of Canada

The late Viscount Byng of Vimy, governor-general of Canada from 1921 to 1926, left an estate with the gross value of \$155,000, it was learned in London.

He bequeathed his field-marshal's baton to his old regiment, the 10th Royal Hussars, which he joined in 1883 and commanded from 1902 to 1904.

To Lady Byng he left \$25,000 and the income for life from the residue of the estate, except for certain legacies to his servants.

After the Great War, Lord Byng was thanked by parliament for distinguished service and granted 150,000. He had commanded the Canadian corps in 1916-17 and the third army from 1917 to 1919.

**Mathieu's Syrup**

## Synthetic Gasoline

## Britain Producing Petrol From Coal, Air And Water

Formal opening by Right Hon. Ramsay MacDonald a few days ago of a plant to manufacture gasoline from coal, air and water is a reminder that the British Empire lacks raw cotton and mineral oil—and this is about all—for economic self-containment. Wartime exigencies started the development of cotton plantations, with a present prospect that requirements can be met, ultimately, from colonies in the Pacific, in Africa and elsewhere, besides India and Australia.

The vast coal supplies of the United Kingdom are now being used in an introductory way for the production of gasoline. It is estimated that the newly-established plant will turn out 100,000 tons of "gas" yearly from 400,000 tons of coal. For the consumer it is not an economical undertaking. The cost of imported gasoline, laid down, is said to vary from 2½ to 4 pence, while the synthetic gasoline costs not less than 7 pence per gallon. To the British government the situation seemed urgent enough to warrant a guarantee of protection from competition. Added to this is the expectation—at least the hope—that the chemical genius which overcame obstacles will in time find a way to lower costs.

The innovation is regarded as a bright light for the coal industry, which has languished for years, and thus an offset to some extent to the cost imposed on gasoline users. It is one step in the progress made in the United Kingdom to find employment for a discontented army of idle people, which, along with the probable assurance of a home supply of oil, is regarded as justifying the heavy investment involved and the additional taxation.—Toronto Globe.

## Will Send Petition

## Women Of Empire Would Safeguard Nationality Of Those Who Marry Foreigners

An appeal to the king is to be made in the new year by women from all parts of the empire to safeguard the nationality of women who marry foreigners.

Organized by the Women's Freedom League, the petition will request the king "to ask the governments in the United Kingdom and each of the dominions to consent to the adoption of uniform legislation to give the married women independent nationality in her own person, in the same terms as a man or single woman."

In July a petition was presented in the House of Commons signed by women's societies in every dominion, asking the government to remove the disabilities of married women in matters of nationality.

STOPS ITCHING  
In One Minute

For quick relief from the itching of pimples, blotches, eczema, rashes and other skin eruptions, apply Dr. Dennis' pure, cooling, liquid, antiseptic D. D. D. Prescription. Thirty years' world-wide success. Its gentle oils soothe the irritated and inflamed skin, thus aiding nature itself to heal the disorder. No fuss—no muss. Clear, greaseless and stainless—dries up almost immediately. Stops the most intense itching instantly. Try D. D. D. now. A 35c trial bottle, at drug stores, will prove it—or money back. D. D. D. Prescription is made by the owners of ITALIAN BALM.

## World's Super Timepiece

## Impossible For This Clock To Lose Or Gain

A clock that will not lose or gain more than a fraction of a second in a year is to be installed at the Royal Observatory, London, Eng. It will be recognized as the world's super timepiece.

Controlled by electricity, its pendulum will swing in a partial vacuum at a constant temperature, and a series of electric impulses will be given out each time the pendulum swings.

The electric impulses will control the dials and mechanism.

Garden lovers are reviving interest in "old" roses that were grown in gardens before the modern hybrids were developed. 2124

## Debt Adjustment Act

## Law Regulating Disposal Of 1935 Saskatchewan Crop

(Hon. T. C. Davis, Attorney-General)  
(Continued From Last Week)

"Let me stress the fact that these exemptions apply only where a seizure is being made under Writ of Execution issued under a Judgment obtained through the courts and do not apply in respect of other seizures in connection with which the absolute control of the situation is in the Debt Adjustment Board, which, of course, decides each case upon the merits of the case.

"Fourth: In connection with the repossession of farm implements, it is to be noted that a very material change was made in the Law of Saskatchewan in the year 1933 when it was provided that the right of a person, selling a farm implement, to recover the purchase price thereof was restricted to repossession of the article sold. This does not apply to implements where the value is less than \$100.00, or to binders, but, in connection with every other implement sold, since that law came into effect, the farmer who purchases it cannot be forced to pay for the same, and the remedy of the seller of the machine is restricted to the return of the article sold. This naturally puts the seller of a machine, sold under this law, in a different position than one who sold under the law as it formerly was; under the old law the seller had the promise of the purchaser to pay for the machine; under this law there is no enforceable obligation to pay. The seller being limited to the return of the article he sold, naturally, is interested in seeing that the value of his machine is not depreciated through use without any payment for the use of it.

"The Debt Adjustment Act applies to contracts made prior to April 1st, 1933, and no repossession can be made of a machine purchased prior to that date without notice to the Board.

"Fifth: In conclusion, let me say, the government has been asked to state the general policy of the government in the matter of collections. In this connection I would say, first of all, that before any person can make a seizure of any kind, the person who makes the seizure must before taking any step at all, give thirty days notice, under the Debt Adjustment Act, of his intention to make a seizure. There are only two exceptions to this, viz., a municipality can seize for taxes without notice and a seizure can be made in urban communities for rent without notice, but in the case of seizures for rent, no sale can take place without the Debt Adjustment Board being consulted. Furthermore, in the case of municipalities, the Debt Adjustment Board has power to intervene. The government, as a matter of general policy, is highly desirous that business in Saskatchewan get back into ordinary business channels as rapidly as possible and that ordinary business relationship between individuals in the province be resumed as soon as possible without interference on the part of the government or of municipalities either by way of furnishing assistance, guaranteeing payments or otherwise, and as a first step towards this objective, the government feels that the people of the province should, as rapidly as possible, get on a self-sustaining basis.

"During the last few years, owing to drought conditions and an absolute failure of production in a large section of the agricultural portion of the province, it has been absolutely impossible for the people therein to maintain themselves, and assistance had to be given to them by both the province and the municipalities which, in turn, were assisted by the government of Canada.

"In many sections of the province, for the first time in many years, the people therein are harvesting a crop this year, and after harvesting expenses are paid from the crop, it is highly desirable in the interests of all concerned that the farmer or producer provide for his seed and feed requirements and for his seeding operations in 1936 and also provide for the maintenance of himself and his family until next harvest, and

wherever in Saskatchewan crop conditions are such that the farmer is able to do this from the proceeds of his crop, then the government will expect him to do it, and seeks the co-operation of all classes, creditor and debtor alike, to secure this desirable end.

"Where the farmer has a surplus over and above his own requirements, for the purposes which I have mentioned, then the farmer should to the fullest possible extent improve his own credit by taking care of his obligations in order that by so doing he may at the earliest possible date re-establish his credit and thereby enable him to purchase his own necessities.

"In the meantime, the government will refrain from pressing for payment of debts due by individuals to it for direct relief this year in order to assist in re-establishing the credit of the individual, all towards the objective of getting business back into normal channels again.

"I am sure that municipalities, creditors and every person will be interested in attaining these ends, and I am sure will co-operate with the government to the fullest extent in trying to reach this condition.

"If any difficulty arises which may interfere with the producer protecting himself and his family to this extent, then the facilities of the Debt Adjustment Board are available to him to assist him in carrying out this intention.

"As I stated at the beginning, a representative of the Debt Adjustment Board is to be found at the judicial centre in each judicial district in the province and he is there to serve the people of this province and to do so free of charge."

The ancients made mayonnaise as early as 14 A.D. It is found mentioned in 487 recipes by a gourmet of that time.

The famous Gutenberg Bible is still preserved in 41 original copies. Each copy is valued at approximately \$100,000.

The Pilgrims were followers of the Puritan movement and, as such, abhorred dancing in all forms.

It's NERVES!  
Strengthen Them!

If you find yourself getting upset at trifles, or worrying yourself sleepless—if your appetite is gone and your temper is frayed thin—its NERVES!

They need soothing, strengthening, rebuilding . . . and there's nothing like PHOSFERINE, the great British Tonic, for doing just that.

PHOSFERINE is a concentrated body builder. You take just a few, tiny, economical drops each day. And those drops work splendidly.

Right from the start PHOSFERINE makes you feel better. It gives you a new confidence—a new springiness to your step, a new sense of fitness.

That's because PHOSFERINE soothes your nerves and feeds your body so that you sleep like a top and eat like a schoolboy.

PHOSFERINE is splendidly effective at all ages for combatting fatigue, sleeplessness, general debility, retarded convalescence, nerves, anaemic condition, indigestion, rheumatism, grippe, neuralgia, neuritis and loss of appetite.

Get PHOSFERINE from your druggist now—in liquid or tablet form—at the following reduced prices:—3 sizes, 50c, \$1.00, \$1.50. The \$1.00 size is nearly four times the 50c size, and the \$1.50 size is twice the \$1.00 size. 51

## Village For Sale

The entire village of Weierhof, Germany, is to be placed on sale by the public receiver. A few years ago the 40 persons living by weaving, formed a co-operative society. The officials absconded, leaving debts of \$50,000. Creditors have obtained a court order for the sale of all lands, houses and goods in the village.

Manchukuo is to have its own "brain trust."

From Your Doctor  
if the "Pain" Remedy  
You Take Is Safe.

Don't Entrust Your  
Own or Your Family's  
Well - Being to Unknown  
Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains . . . and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

### SYNOPSIS

Nancy Nelson is a sub-deb, a gay, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market crash, her indulgent father loses all he had, and his family is faced with the necessity of a simpler method of living. At this juncture a letter is received from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible conditions.

After much consideration Cousin Columbine's offer is accepted, and Nancy and Jack arrive at Pine Ridge.

Nancy set out one afternoon to climb to the top of a hill so as to obtain a view of the surrounding landscape and misses the path Aurora Tubbs had told her to follow. A truck comes along the road, driven by Matthew Adams, and she asks him which way to go. They ascend the hill, look around, and then go on to Cousin Columbine's. There Mark Adam tells Nancy that his brother Luke has broken his leg, and that Jack Nelson has been hired to help out while Luke's leg gets better. With Jack away, Nancy finds that she is lonesome, and having no books to read, the idea of starting a public library at Pine Ridge seems a good one, and Nancy writes home to get her parents to send all the books they could spare and all they could induce others to let them have.

Nancy's parents and friends gave their liberal support to her request for books, and a sizeable box arrived in due course. Father Adam painted a sign for the library, and the Adam boys worked on the shelves for the

books and decorations to make the room look presentable.

Jack Nelson, Matthew Adam, and Nance go to the prairie home of Matthews' uncle for the ride, and after Nance and Jack leave for home, they are caught in a blizzard. Blinded by the swirling snow they collide with a bus full of school children, which was stalled across the road with its back wheels resting in a snow-filled gully. Their car being wrecked, Jack and Nancy stay with the children and do all they can to help. The next morning Jack sets out for help in the blizzard. He succeeds in finding help, and the party of children and Nancy are rescued. As a result of the exposure Nancy's feet are badly frozen and Jack is seriously ill with pneumonia, but both of them recover.

Now Go On With The Story

### CHAPTER XXIII.—Continued

"It's fortunate they're so much taller than the fence," said Jack. "I suppose they were intended to be imposing; but we can lower them a foot without hurting the appearance of—" (he glanced about to be sure that Cousin Columbine was nowhere near), "of this magnificent property! Fall to, Sis, and get busy with that shovel."

The girl obeyed, rather enjoying the novelty of the task for a little while; but at last she paused, complaining: "I've struck a rock, Jack."

"In this place? More likely it's a bone some dog has buried."

Nancy laughed.

"It was an energetic dog then, or a prehistoric one! My post broke off lower down than yours, Jack, and I've gone a good bit deeper. Perhaps there's enough of a hole here now; but I want to see what this thing is." She lifted the spade, digging for a moment viciously. "It certainly feels like a rock, but—"

Nance ceased abruptly, and dropping flat onto the ground, reached into the new-made hole while her brother watched, a smile of amusement lighting his eyes.

"For the land's sake what are you doing flat on your stomach in all that dirt?" cried out Aurora, who had drawn near to superintend the work.

"Hunting for buried treasure," Jack answered, grinning. "Pieces of eight, you know. She thinks she's found—"

"I have!" cried Nancy, scrambling up in great excitement. "Give me that crowbar, Jack. I have!"

"What's all this commotion?" demanded Cousin Columbine, who, hearing Nancy's elated voice, had hurried out. "Mercy, child! have you been digging that hole with your two hands?"

Nance laughed, and answered: "It'll all come out in the wash, Cousin Columbine! You see, I've uncovered something down there—something that's evidently been buried for ages. I thought at first it was a rock; but it has sharp corners like a metal box. Did your people ever hide any valuables that way in time of Indian raids?"

The old lady shook her head, and peering into the hole, replied: "Not that I know of. Pry the thing out with your crowbar, Jack, but go gently. It's your sister's property, you know."

"So 'tis," affirmed Aurora. "Find-in's keep-in's; but if it turns out to be a human skull don't let me see it. I never could abide the sight of bones, Jack Nelson. Even a good fresh soup bone goes against me."

No one paid any attention to this warning, for Jack cried out: "Great Scott! It is a box of some sort! Hold on there, Nance, I'll—"

But his sister was already on the ground, reaching far down to where her discovery lay dislodged. In fact, one and all were on their knees beside her when she drew it forth; a small iron box, almost disintegrated by rust and time.

"Is—is it locked?" questioned Aurora, too utterly amazed to speak with her accustomed shrillness.

Nance shook it cautiously, then with small difficulty raised the cover, disclosing what proved to be a Maltese cross of solid brass suspended from a crucifix carved from some dark stone. As she lifted the relic from its long hiding place, holding it aloft for all to see, a sense of awe held them silent for a moment; then the girl exclaimed in sudden inspiration: "Those Spanish priests! Could—could one of them have lost it, Cousin Columbine?"

The old lady reached out, touching the crucifix with reverent fingers.

"Why not? It may have lain here more than a century. Or perhaps it was captured by hostile Indians, buried for safety and then forgotten."

## THIS IS THE WAY TO HAPPINESS

There's nothing—absolutely nothing—to take the place of perfect health as the foundation of a happy life. And no better way for every one to get it than to turn to that famous tonic wine, Wincarnis.

Wincarnis is not a drug. It is simply the purest of fine wine with all the valuable properties of the 2½ lbs. of grapes which go to every bottle, combined with the strengthening elements of beef and guaranteed vitamin malt extracts.

From your first glass of Wincarnis you will feel new vigour stealing through your veins. You will sleep more soundly, wake more refreshed. In a few days you will have forgotten the irritableness of your former half-well state. You will go through the most strenuous day at the top of your form.

Twenty thousand doctors have recommended Wincarnis for nervous disorder, anaemia, debility, and all run-down conditions. Start taking—and enjoying—Wincarnis today. Your druggist sells Wincarnis.—Sales Agents: Harold F. Ritchie & Co. Ltd., Toronto.

21

If we find an inscription—even a date, Nancy, it will shed some light on this strange mystery. Carry box and all into the house and we'll examine them."

In this absorbing interest the gate posts were forgotten for an hour; but no clue as to the origin of the sacred relics was discovered; and though Jack dug deeper in the hope that other treasures were buried nearby, his efforts were fruitless.

"What stone is the crucifix carved in?" questioned Nancy, when, the gate posts properly erect at last, the subject was resumed at the dinner table.

"Chalcedony, I think," said Cousin Columbine. "And did you notice the hammer marks and filed edges on the Maltese cross? Hand work, and very, very ancient, if I'm any judge. These things are of real historical value, Nancy. They should be in some museum; but surely you have the right to keep them for the present. In my own mind there's not a doubt that they came from one of the Spanish expeditions. Dear me! what a story we shall have to tell the Adams! Did Mark say what time they would send down for us?"

"Not before five. I have some things to do at the library this afternoon; and I must finish packing so that to-morrow will be free. It gives me a terrible feeling, Cousin Columbine, to think how soon we're going to leave you."

"And I bet it gives Miss Columbine a worse one," declared Aurora as she thumped an apple pie down on the table. "Pine Ridge won't never

be the same again, if you ask me—not that it won't be nicer'n before you came, with the Aladdin Library an' everything. You've had an awful good influence on Juanita, Nancy Nelson, even if you have got her so she wants her dresses darker'n I like on a young girl, or an old one either for that matter. But she's took your advice about goin' to business college come fall, and'll stay with her Aunt Emma down to Colorado City while she learns shorthand. I hope she don't marry some good-for-nothin' feller afterward. No use wastin' money on an education if you're to spend your life over a wash tub."

That afternoon when all but the last-minute packing was accomplished, Nancy slipped into the white sport silk she was to wear at the Adams', and sought the library. It was not "Library Day," but she wanted to finish numbering a second box of books from the Oklahoma family, as well as to write instructions for Mary Taylor; and not wishing to be interrupted, she closed the door. Nance worked slowly, pausing every now and then to look about with that pleasurable sense of accomplishment the little library always gave her; wondering why, when these months in Pine Ridge had gone so well and she was eager to see the family, this horrid homesickness kept creeping over her.

"It must be because Edgemere's so far away," she mused, "and Cousin Columbine hates so to have us go. And there are the Adams! It would be queer. . . ." Nance closed her eyes as if to call up some picture, and her color rose as she said impatiently: "Why don't you face the truth, Nancy Nelson? You just can't bear to leave because. . . ."

The door pushed open. "Do you mind if I interrupt you for a moment?"

(To Be Continued.)

## A NEW SERIAL STORY

Arrangements have been completed for presenting to our readers a new serial entitled "Fleming's Folly", by that well-known writer, Lawrence A. Keating. This is an absorbing and exciting story of the western plains, and those who follow the installments as they appear each week, will be thrilled by the intensive situations. This story will be commenced in an early issue. Be sure that you do not miss the opening chapters.

## WATCH FOR IT

### Paralysis Is Contagious

### Recovery From The Disease Is Believed To Produce Immunity

Sixty per cent of Edmonton residents are immune to infantile paralysis, according to the best medical opinion on a dread disease, knowledge of which is still in the transitional stage, it is declared by Dr. R. B. Jenkins, medical health officer.

While some have said that infantile paralysis is not contagious, Dr. Jenkins said, the findings of all recognized authorities make this assertion "sheer nonsense." It has been proven by authorities, he said, that the disease can be spread in food and drink and by human carriers and insects.

In laboratory experiments the disease was spread from monkey to monkey by a stable fly. The virus remained active on house flies for 48 hours.

Knowledge of infantile paralysis is rapidly improving and years ago there were undoubtedly many mild cases not recognized. Even to-day persons said to be carriers might actually be mild cases. Recovery from the disease is believed to produce immunity. No recurring cases are known.

### Cigarettes In Canada

Every time a cigarette is carelessly tossed aside there is a danger of fire. A mathematician will tell you that if all the cigarettes smoked in Canada last year were placed tightly end to end they would encircle the earth at the equator nearly eight times. This is purely academic interest but the fire hazard of 197,000 miles of cigarettes is of very real interest to Mr. and Mrs. Canadian Citizen because it hits where it hurts—right in the pocket.

## Little Helps For This Week

I will sing unto the Lord for He has dealt bountifully with me. Psalm 13:6.

Thy calmness bends serene above,  
My restlessness to still;  
Around me flows Thy quickening life,  
To serve my faltering will;  
Thy presence fills my solitude;  
Thy providence turns all to good.

With a heart devoted to God and full of God, no longer seek Him in the heavens above or the earth beneath, or in the things under the earth, but recognize Him as the great fact of the universe separate from no place or part, but revealed in all places and in all things and events moment by moment. And, as eternity alone will exhaust this revelation which has sometimes been called the Eternal Now, thou shalt thus find God ever present and ever new, and thy soul shall adore Him and feed upon Him in the things and events which each new moment brings, and thou shalt never be absent from Him, and He shall never be absent from thee.

### Tear Gas

### Is Recommended For Defence Instead Of Bullets

J. Edgar Hoover, director of the United States bureau of investigation, recommends tear gas instead of bullets for self-defence. "A dose of tear gas will incapacitate the criminal," he said. "Firearms require a certain amount of technical skill in operation, whereas a gas gun can be used effectively with a little practice."

A maid who recently joined the church was asked how she knew she was converted. She replied, "Because I clean under the rugs."

It has been estimated that 10 cosmic rays, with energies up to 10,000,000,000 volts pass through the human body every minute.

Deauville, France, has organized a bicycle police squad.

## Items of Interest

All liquor advertising, including daily and weekly newspapers, billboards, placards, radio and all media, must stop February 1, under a regulation of the provincial government through the liquor control board, it was announced last Thursday by Premier Aberhart after a cabinet meeting.

Cost to subscribers of rural telephones in the provincial system will increase 35 per cent on February 1, it was announced by Hon. W. A. Fallow, minister of railways and telephones. The increase comes through cancellation of the 35 per cent "premium" which, since 1932, has been rebated on rural accounts. This so-called premium was instituted to help farmers through years of low grain prices. Subscribers' mutual telephone company lines will not be affected, nor will extra tolls on provincial rural lines.

The labor department announced Saturday it was mailing to provincial governments cheques for grants in aid for November totalling \$1,751,250 in the following amounts: P.E.I. \$1,250; Nova Scotia \$40,000; New Brunswick \$25,000; Quebec \$500,000; Ontario \$600,000; Manitoba \$135,000; Saskatchewan \$200,000; Alberta \$100,000; British Columbia \$150,000.

The provincial government sold 479 telephone lines to rural mutual companies for only \$177,452, while the book value of the lines at the time was \$4,199,635, Hon. W. A. Fallow, minister of railways and telephones, announced last week in Edmonton.

The Prince of Wales won first prize in the breeding Shorthorn division at the international livestock exposition with his 2-year-old bull, Bapton Orator.

## The University of Alberta.

There has recently been issued from the University Press, Alberta, a message from President Wallace of the University to the people of Alberta, in which he briefly sets forth the functions of the University as follows: "The purpose of the institution is to conserve and to widen knowledge. In other words its function is twofold: teaching and research. It must present what the past has achieved; it must do its part in exploration of the unknown."

We regret that space will not permit a reproduction of the message, but would suggest to all interested parties to write the University of Alberta for a copy to be sent forward.

Buy Your Boy a Skating Outfit for Xmas! We have them from \$2.75 up — T. E. Scott

St. Cyprian's W.A. Annual Bazaar & Supper, Saturday, December 7 in the Leuzler Block. Sale of fancywork and home-cooking 3 p.m. and hot supper from 5:30.

The High School Athletic Club has arranged for a dance in the Opera House on Friday, December 20th. The proceeds will be used to buy equipment for the club.

Rev. G. G. Webber, of Vancouver, the Western secretary of the Lord's Day Alliance, will preach at the M.B.C. Church on Sunday afternoon. In the evening he will occupy the pulpit at the United Church.

On Saturday evening, Nov. 23rd, at the home of Mr. and Mrs. Ed Klinek, about fifty people gathered for a shower in honor of Mr. and Mrs. Clifford Eckstrand, of Carstairs. The bride and groom received many beautiful and useful gifts.

The regular meeting of the ladies of the W.C.T.U. will be held in the Evangelical Church parlors, Thursday, December 12 at the usual hour. Rev. J. R. Geeson will speak on the "Need of Temperance Education." There will be special music, and a good attendance is requested.

SPECIAL CHRISTMAS OFFER—Two 7x9 Photos mounted, and One 7x9 Colored Photo mounted, for \$3.00. With each \$5.00 worth of photos we will give one enlargement; and with each \$10.00 worth of photos, one enlargement colored. Family group a specialty. Xmas cards from your own negatives. We do photography both by daylight and at night. Appointments should be made for night sittings. (48p)

THE PHOTOGRAPHER

## Drafting Forms for Dividends of Social Credit in Alberta.

Work on drafting of registration forms for payment of Alberta Social Credit dividends is being continued. Acting Premier E. C. Manning said Saturday. Although inauguration of these payments is admittedly at least 18 months distant, several drafts of the registration forms have been turned out and revised, and still another revision is now under way, Mr. Manning said.

## Melvin Notes.

Mrs. J. Hosegood spent Sunday evening at Mrs. Roy McNaughton's.

Peter Johnston who has been visiting his uncle returned to his home at Drumheller.

Miss Bertha Good is visiting Mrs. Peter Johnston.

Mr. and Mrs. N. S. Clarke spent Tuesday afternoon at Mr. and Mrs. Chas. Youngs.

Mr. and Mrs. Landeen entertained the young people of the district at their home in honor of their daughter, Sara's birthday last Wednesday.

Mrs. W. Summers returned home Friday evening after spending a week with Mrs. Geo. Summers in Calgary.

Mr. Clarence Bolton returned home Saturday after spending a week in Calgary.

We are sorry to hear that Mrs. Chas. Youngs had the misfortune to have a bad fall. We hope she will soon recover.

Mr. and Mrs. Tom Duncan spent Friday at Mrs. Geo. Youngs.

Don't forget the dance at Melvin Friday, December 6th, Borbridge Orchestra.

Mr. and Mrs. Roy Shaw spent Sunday at Mrs. W. Brown's.

Mr. and Mrs. Grenier spent Sunday evening with Mrs. Aug. Krebs.

The whist drive held Tuesday at Melvin was well attended. Miss Sara Landeen won Ladies 1st, Miss B. Landeen the consolation, Harry Klein gets first and John Landeen consolation.

Mr. and Mrs. A. Krebs and Lester spent a couple of days last week with their daughter, Mrs. W. Allen at Edmonton.

We hope the weather will continue fine until the threshing is finished. Threshing recommenced in this district the first of the week.

## Things To Remember
